

Mitochondrial Medicine 2007: Riding the Wave of the Future Scientific Session Order Form

Day 1

- Audio** **Handout** Mitochondria in Neurodegenerative Disease – *Eliezer Masliah, MD*
- Audio** **Handout** The Role of mtDNA Variation in Age-Related Diseases – *Douglas Wallace, PhD*
- Audio** **Handout** A Mitochondrial Toxin Model of Parkinson's Disease – *J. Timothy Greenamyre, MD, PhD*

Day 3

- Audio** **Handout** Treatment of Mitochondrial Disease: Overcoming the Obstacles to Clinical Trials – *Peter Stacpoole, PhD, MD*
- Audio** **Handout** Exercise and Mitochondria: From Physiology to Treatment – *Mark Tarnopolsky, MD, PhD*
- Audio** **Handout** Targeting Treatments to Mitochondria – *Michael Murphy, PhD*

Day 4

- Audio** **Handout** Systems Analysis of Human Mitochondrial Disorders – *Vamsi Mootha, MD*
- Audio** **Handout** The Clinical Utility of Polarographic Analysis – *Charles L. Hoppel, MD*
- Audio** **Handout** Human Skeletal Muscle Mitochondrial Function in Type-2 Diabetes and COPD – *Robert Boushel, DSc*
- Course Syllabus**

COST (includes shipping):

UMDF Member

- \$10 per audio recording
- \$ 2 per handout to accompany CD
- \$15 Course Syllabus
- \$30 Complete Set: Data CD*/Handouts

Non-Member

- \$15 per audio recording
- \$ 2 per handout to accompany CD
- \$20 Course Syllabus
- \$50 Complete Set: Data CD*/Handouts

**Data CD will only play on computer or on players that accommodate MP3 data CDs.*
